

Children's Waiver Program (CWP)

Note to Reader

CWP pertains only to persons with developmental disabilities. In the ConsumerLink Network, only Neighborhood Service Organization (NSO/Life Choices) and The Guidance Center are contracted with the State of Michigan to provide this service.

All CWP services are billed directly to the State and bypass ConsumerLink completely. The **only exception** is psychiatric inpatient care for a CWP participant. If a CWP participant does require psychiatric inpatient care, the service would be authorized and paid for by ConsumerLink.

ConsumerLink does request the CWP Pre-Screen be completed on possible candidates as part of the COB process.
